BIOMEDICAL APPLICATIONS OF GOLD NANOPARTICLES

Biomedical applications of gold nanoparticles

LAP Lambert Academic Publishing Feb 2016, 2016. Taschenbuch. Condition: Neu. Neuware - Among all different types of nanoparticles used in nanomedicine, gold nanoparticles (GNPs) are the most investigated, because of their exceptional biocompatibility, unique optical properties and tremendous potential for various treatments that require a personalized approach. In this book, we analyzed various classical and green synthesis methods of GNPs that allow the control of shape, size and physical properties of these nanoparticles. Since non-toxic GNPs are a prerequisite for...

Reviews

This written publication is wonderful. It is really fascinating through reading period. I discovered this book from my dad and I suggested this publication to find out.

-- **Keshaun Daugherty**

This book is fantastic. It really is packed with wisdom and knowledge. I am pleased to explain how this is the greatest eBook I actually have gone through in my personal daily life and can be the greatest eBook for at any time.

-- **Mr. Zachariah O'Hara**

This book is really gripping and interesting. Of course, it is actually perform, still an interesting and amazing literature. You will not truly feel monotony at whenever you want of your time (that's what catalogues are for concerning when you request me).

-- **Claud Schaden**
