Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Auscultation and Percussion The primary object of the physical examination of the chest is the attainment of a knowledge of the physical condition of the important organs contained within it. Not until this knowledge has been obtained are we in a position to determine with all possible accuracy the cause or causes which have led to, or which underlie, those deviations from the normal physical condition revealed to us by the methods about to be described. Essentially the same physical condition may be encountered in widely different diseases - z . E., as the result of quite different causes - to discriminate between which the family and previous history of the patient; the influences to which he has been exposed; the symptoms which he presents, with their mode of onset, progress, and sequence; a careful examination of the patient as a whole, of his other organs or systems of organs; and, finally, a thorough knowledge of the natural history of general and local morbid processes; must all likewise be duly noted and weighed. In a word, percussion and auscultation - the two chief modes of thoracic physical exploration - lead directly to the detection of diseased conditions, only indirectly to that of diseases. Health precedes disease; it is, therefore, incumbent on us to master healthy conditions first. Perfect familiarity with the anatomy of the healthy chest and its contents, with the structure of each separately and the mutual relations of all is of vital importance. Furthermore, the variations of size and relation within the limits of health which may occur in the same person at different periods of life or under different conditions - as in...
