TEN SHORT STORIES, less brutal but also just as virtual as many of Jack London's earlier tales. The first of this group is a story of the Klondike; others that follow give pictures of the South Seas, of San Francisco, of Mexico, and of other parts of the world that border the Pacific. The titles are: The Night-Born; The Madness of John Harned; When the World Was Young; The Benefit of the Doubt; Winged Blackmail; Bunches of Knuckles; War; Under the Deck Awnings; To Kill a Man; The Mexican. It is undeniable that, despite The Sea Wolf and Martin Eden, Jack London is at his best as a short story writer. He has the power of condensation, the knack of compressing much into little, and his love for the primitive and the virile in man finds its freest and best outlet in the briefest of narrative of incident. He is neither reflective nor introspective, and in a day and an hour when the psychological and analytical story is all prevailing, London's simple and unpretentious tales are especially invigorating. The characteristic London tales, of compelling force, though their strength is purely one of physical appeal. They throb with action and virile life, so far as the externals go, but the mystery of the inner man, the finer workings of the mind torn by purposes and cross purposes, the author undertakes to discover. This collection is very Londonesque in its quality and will be much enjoyed by the many admirers of his vigorous style.
