

Carlsbad Cavern Resource Protection Plan: Implementation Plan and Environmental Assessment; Carlsbad Caverns National Park, New Mexico (Classic Reprint) (Paperback)

By National Park Service

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Carlsbad Cavern Resource Protection Plan: Implementation Plan and Environmental Assessment; Carlsbad Caverns National Park, New Mexico Carlsbad Caverns National Park proposes modification of the developed area above Carlsbad Cavern. As directed by the park's general management plan (nps, an infiltration study was performed to determine the impacts of the developed area on Carlsbad Cavern and groundwater. This study found contamination of cave pools from parking lot runoff and leaking or overflowing sewage lines and identified potential catastrophic contamination that could be caused by vehicle accidents or fires, structural fires, or fuel leaks. The general management plan also states, that based on the study the park will complete a development concept plan to decide the future of surface facilities over Carlsbad Cavern. This plan and EA fulfills this directive. The goal of this plan is to protect the cave from existing sources of contamination, to prevent future damage to the cave and the groundwater system, and to provide a safe, quality visitor experience. To accomplish these goals, the park considered three alternatives that would 1) eliminate pollution sources above the cave...

Reviews

This book is great. it was writtern quite flawlessly and helpful. You will not truly feel monotony at whenever you want of your time (that's what catalogs are for concerning if you ask me).

-- **Sterling Kris**

This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
