Excerpt from Hazardous Waste Management Study Commission: Report to the 1989 General Assembly of North Carolina, 11 January, 1989 In the four years since its creation, the Treatment Commission has pursued the goal of siting a comprehensive hazardous waste treatment facility. During that time there have been a number of changes in federal statutes and regulations related to hazardous waste. In addition, there have been advances in the technology of recycling, treatment, and disposal of hazardous waste, as well as changes in the economics of hazardous waste treatment. These changes gave rise over time to concerns that the course adopted in 1984 might not now be in the best interest of the State. As a result of these concerns and other factors, the 1988 General Assembly enacted 1987 Session Laws, Ch. 993 (house Bill Among other provisions, this act prohibited the Treatment Commission from engaging in further siting activity without authorization by the General Assembly (except that the Treatment Commission could continue to seek a volunteer county willing to host the facility), and authorized the Governor to enter into interstate agreements to provide for the treatment and disposal of hazardous waste outside the State.
