FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Livestock and Meat Situation: Lms-223; October 1978 How livestock producers are faring now depends a great deal on the type of operation. Cattle feeders and pork producers with feeder pig finishing enterprises are seeing their costs rise sharply as a result of higher feeder animal prices. Feeder cattle prices have been \$20 to \$25 per 100 pounds higher this summer than a year ago. Feeder pig prices are also much higher. These higher feeder animal prices are pushing up the cost of production. Total production costs for both cattle and hog feeders who purchased animals this summer are probably above current prices for the finished animals. Thus, it will take an increase in fat cattle and slaughter hog prices between now and slaughter time just for the producer to break even.
