VOID DISTRIBUTION OF SPECIMENS OF OTTAWA SAND

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Void Distribution of Ottawa Sand by Magnetic Resonance Imaging Technique | The void distribution of specimens of Ottawa sand was quantified via Magnetic Resonance Imaging (MRI) technique. Two specimen reconstitution techniques, wet-tamping and air-pluviation, were used to generate the specimens. The specimen was prepared in a non-metallic triaxial cell. After fully saturated, the specimen with the cell was put inside a MRI device. Data was acquired at initial state and different stages...
