

Child Development (Experimental Child Psychology), Vol. 1

By Sujata Mittal

2004. Hardcover. Book Condition: New. 290 Study of child psychology is not a child's play. It requires more patience, understanding and sensitivity than the study of adults' behaviour of child psychology like heredity, environment and acquired traits in a classroom and playground. Needless to say media influence is stronger than any other factor. All these require empirical as well as personalized studies for experimentation and inferences for treatment and course correction. This book provides a systematic framework to study and teach this crucial subject. About The Author:- Dr. (Mrs.) Sujata Mittal is a gynaecologist of repute, her special interest being in the field of gynaecological cancers and women's diseases. She has served at some reputed organizations like Rajiv Gandhi Cancer Hospital, Tata Memorial Hospital and Jaipur Golden Hospital in the past, with distinction. Currently she runs her own nursing home at Rohini, Delhi besides being a visiting consultant at the famous Apollo Hospital. She is a regular invitee to reputed medical conferences conducted all over India and abroad. Some of the papers presented by her at these conferences have won her medals and awards. Some of these papers are also published. She is also a social activist committed to the cause...
