## WARFIGHTER SUPPORT: ARMY HAS TAKEN STEPS TO IMPROVE RESET PROCESS, BUT MORE COMPLETE REPORTING OF EQUIPMENT AND FUTURE COSTS IS NEEDED: REPORT TO CONGRESSIONAL COMMITTEES. (PAPERBACK)

On Demand Publishing, LLC-Create Space, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. From 2007 to 2012, the Army received about \$42 billion to fund its expenses for the reset of equipment-including more than \$21 billion for depot maintenance-in support of continuing overseas contingency operations in Southwest Asia. Reset is intended to mitigate the effects of combat stress on equipment by repairing, rebuilding, upgrading, or procuring replacement equipment. Reset equipment is used to supply non-deployed units and units preparing for deployment while meeting ongoing operational requirements. In 2007, GAO reported that the Army's reset strategy did not target equipment shortages for units deploying to theater. For this report, GAO (1) examined steps the Army has taken to improve its equipment reset strategy since 2007, and (2) determined the extent to which the Army's reset reports to Congress provide visibility over reset costs and execution. To conduct this review, GAO reviewed and analyzed DOD and Army documentation on equipment reset strategies and monthly Army reports to Congress, and interviewed DOD and Army officials.
