Reviews

The ideal pdf i at any time read. I am quite late in start reading this one, but better then never. You will like the way the author create this book.

(Eliane Bednar)

STIFF: THE CURIOUS LIVES OF HUMAN CADAVERS (HARDBACK)

WW Norton Co, United States, 2003. Hardback. Book Condition: New. 211 x 147 mm. Language: English . Brand New Book. Stiff is an oddly compelling, often hilarious exploration of the strange lives of our bodies postmortem. For two thousand years, cadavers-some willingly, some unwittingly-have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender reassignment surgery, cadavers have been there alongside surgeons, making history in their quiet way. In this fascinating, ennobling account, Mary Roach visits the good deeds of cadavers over the centuries-from the anatomy labs and human-sourced pharmacies of medieval and nineteenth-century Europe to a human decay research facility in Tennessee, to a plastic surgery practice lab, to a Scandinavian funeral directors conference on human composting. In her droll, inimitable voice, Roach tells the engrossing story of our bodies when we are no longer with them.
