AUTHORHOUSE, United States, 2009. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. According to a recent study, as many as 1 in 91 school age children are somewhere on the Autism Spectrum. It's reached epidemic proportions! Everyone seems to know someone who's affected by autism. It's no coincidence that so many of our kids on the spectrum also have various immune problems like allergies, asthma, and eczema to name a few. Many of them have bowel problems that cause toxins to accumulate in their bodies. When the toxins accumulate, the liver has to work harder to get rid of those toxins. Chronic ear infections and antibiotics seem to be another common problem. The use of antibiotics causes an overgrowth of yeast (candida) which causes all kinds of problems and symptoms. And it just snowballs from there. Our autistic kids are just more sensitive to the toxins in our environment - they're like environmental barometers of how truly toxic our environment has become. It is possible to overcome Environmental Autism. There are parents who have done it or are doing it. **Overcoming Autism: A Parent's Guide** is informative, compassionate, empathetic, and at times provides some much needed humor. It's written by a parent for parents and offers direction to parents of autistic children who are baffled by the lack of information and help mainstream medicine has to offer them to deal with autism. It provides helpful information based on hands-on experience with; early intervention, various therapeutic interventions, integrative medicine, the environmental connection, how autism affects the family, and how the author's son ultimately overcame many of his autistic disabilities. It also offers hope!
