EXECUTIVE SUMMARY 1980s. China is going through a great change. which is a captivating modern practice. is bound to have a positive and far-reaching impact on the field of social preparedness. Modern ultimately modern. modern education are inseparable. For in terms of education. only to achieve the transition to assume the mission entrusted by the times. The main battlefield in the transformation of education in schools. between the original school cultural patterns and the development of the times. obviously not suited the one hand. this not suited to lead the school culture crisis. on the other hand also heralded the arrival of the transformation of school culture . The spontaneous passive waiting for the path of cultural transformation. and also active consciously constructed path. The book advocated and called for contemporary Chinese schools should enhance cultural awareness. shoulder cultural mission initiative and conscious school culture construction practices to promote the transformation of school culture. Book methodology perspective of ecological theory and ecological worldview. integrated use of multidisciplinary cultural philosophy. pedagogy. management theory. the...
