Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Manual of Histology The science of Histology has advanced so much since the first appearance of the predecessor of this volume, that a sufficiently adequate presentation of the subject for students requires more space than the usual amount available in a quiz compend. The compend was, therefore, utilized as a basis for this expansion and has been incorporated into the text of the Manual. The Chapter on Technic, or Practical Histology, has been enlarged to meet the requirements of routine work in Laboratories of Normal and Pathologic Histology and Hematology. The other Chapters have been materially increased, especially that of the Nerve System. In this a general consideration of the External Anatomy, or Morphology of the Brain, has been given in a sequential manner and the Internal Anatomy, or Histology, has been taken up in the same manner. The various Pathways have been given separate consideration so that this Chapter will be of use to those studying Neuroanatomy and Neuropathology. Many illustrations have been added from various sources and 40 photomicrographs have been utilized. The writer desires to thank Dr. J. I. Fanz for his assistance in the preparation of some of the photomicrographs and Dr. Clarence Hoffman for the preparation of the dura showing Sharpey s fibers. The writer is also indebted to the publishers for their courtesies and assistance in the selection of illustrations. The author trusts that this volume will meet with the same appreciation and success as the compend. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art...
