

Going Global: Unions and Globalization in the United States, Sweden, and Germany (Hardback)

By James A. Piazza

Lexington Books, United States, 2002. Hardback. Condition: New. Language: English . Brand New Book. Can organized labor survive in a globalizing world? Going Global explores the impact of increasingly globalized manufacturing on the labor movement in the industrialized West. In a detailed comparative study of metalworking and textiles unions in the United States, Sweden, and Germany James A. Piazza reveals an international labor movement under threat, crippled by falling union membership and waning political influence. Piazza illustrates-through statistical analysis and industry-specific case studies-organized labor's urgent need for effective structures of collective bargaining, strong political connections, and democratic workplace institutions. Going Global will be of great interest to scholars of international political economy and industrial relations seeking a blueprint for organized labor's survival in the new global economy.

Reviews

A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.
