

## Applying Implementation Science in Early Childhood Programs and Systems

By Edited by Tamara Halle, Allison Metz and Ivelisse Martinez-Beck

Paul H. Brookes Publishing Co., 2013. Softcover. Book Condition: New. Improving outcomes for young children and their families may start with choosing evidence-based curricula, interventions, and practices--but it doesn't end there. To ensure sustained changes to early childhood programs and systems, interventions must be implemented effectively and consistently over time, which isn't an easy or straightforward task. This important book is the first research volume on applying implementation science--an evidence-based framework for bridging the research-to-practice gap--to early childhood programs and systems. With contributions from 25+ early childhood researchers, this essential reference will help ensure that interventions are not only implemented effectively, but also scaled up and sustained so they help as many children as possible. Administrators, researchers, and policymakers will . examine how the growing field of implementation science can help close the research-to-practice gap in early childhood . discover the core components needed to implement and sustain change in programs and systems . explore through specific examples how to build practitioner competency and promote high-fidelity implementation of early childhood innovations . get in-depth guidance on replicating and scaling up programs at the district and state level . learn from a helpful five-step model for assessing the fidelity of interventions...
