Princeton Univers. Press, 2014. Gebundene Ausgabe. Condition: Neu. Neu Neuware, Importqualität, auf Lager, Versand per Büchersendung - In this major new account of the causes of this 'First Dark Ages,' Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, *1177 B.C.* sheds new light on the complex ties that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age--and that set the stage for the emergence of classical Greece. 237 pp. Englisch.
