LAP LAMBERT Academic Publishing. Paperback. Book Condition: New. Paperback. 52 pages. Dimensions: 8.7in x 5.9in x 0.1in. Plant tissue culture is a branch of plant biotechnology which works on the principle that all plants have totipotency. Plant tissue culture has become especially important in the agricultural community over the past many years. During this time period, plant tissue culture have effectively moved from the confines of small laboratories and has taken its place among main stream, broad scale techniques employed by...

Reviews

This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who state that there had not been a worth looking at. You wont really feel monotony at any moment of your own time (that's what catalogs are for about should you request me).
