paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Publisher: Fudan University Press Pub. Date :2007-4-10. This book, first published in 1983, revised edition published in 1990, has won the State Education Commission issued the Outstanding teaching Award. twenty years to polymer physics teaching has long been a preferred book. To reflect the rapid development of polymer science, the editors with many years of teaching and research experience, made reference to the large number of new textbooks and related literature at home and abroad. Shanfanjiujian, innovation, re-write the book, make it more in line with current teaching and research needs. The book is more systematic and comprehensive introduction to the basic polymer physics theory and research methods. Divided into ten chapters, including the polymer chain structure, the nature of polymer solution, polymer aggregation structure, multi-component polymer systems, polymer crystalline, amorphous, polymer mechanical, electrical, optical and other properties, and polymer analysis and research methods, and so on. From the viewpoint of molecular motion to explain the performance of polymers and structure relationships. This book covers a wide, explained in layman's language, but also with detailed reference information, suitable for professional colleges polymer materials; some more in-depth reference content for teachers and the school has spare capacity of students to read, is also available the majority of scientists and research officers. Contents: Chapter 1 Introduction 1.1 A Brief History of Polymer Science 1.2 1.3 small molecules to macromolecular polymer molecular weight and molecular weight distribution 1.3.1 Definition 1.3.2 of the average molecular weight molecular weight distribution of the representation 1.4 Determination of molecular weight and molecular weight distribution 1.4.1 osmotic vapor pressure osmosis method 1.4.2 1.4.3 1.4.4 Light Scattering TOF-MS method 1.4.6 1.4.5 Viscosity 1.5 polymer size exclusion chromatography of...
