Topics in Palliative Care: Volume 1

By -

Oxford University Press, USA. Hardcover. Condition: New. 316 pages. Dimensions: 9.4in. x 6.1in. x 1.1in.Palliative care focuses on the management of disease symptoms that produce discomfort and pain, compromise function, or otherwise undermine the quality of life of patients with progressive medical disorders. It is a fundamental part of clinical practice, the necessary companion to therapies directed at the prolongation of life and the cure of disease. As a clinical specialty, palliative care is just beginning to define itself in the United States. The appearance of Topics in Palliative Care meets the growing need for information in this rapidly evolving field. This first volume in this series concentrates in four crucial areas: pharmacotherapy of pain, psychosocial adjustment to cancer, management of delirium, and gastrointestinal disorders. Contributors at the forefront of their fields come from varied medical backgrounds to address the controversies and clinical relevance of these topics from the viewpoint of their respective disciplines. They summarize the rapidly advancing scientific foundation of palliative care and discuss the methods necessary to meet patient needs, always keeping in mind practitioners at the bedside. Every volume of Topics in Palliative Care explores many interdisciplinary concerns in the area of palliative care, including the...
