

Chemistry and Ecotoxicology of Pollution (Hardback)

By Des W. Connell, Gregory J. Miller

John Wiley Sons Inc, United States, 1984. Hardback. Condition: New. Language: English . Brand New Book. Systems Ecology An Introduction Howard T. Odum An integrated theoretical and applied approach to systems ecology, using diagrammatic language to explain basic concepts of systems, modeling, and simulation. It presents simple and moderate complexity models as the ones of primary utility in theory and practice; combines energetics and kinetics, rather than viewing them separately; and generalizes concepts of ecosystems and economic systems, among its many vital features. (0 471 65277-6) 1983 Ecogenetics Genetic Variation in Susceptibility to Environmental Agents Edward J. Calabrese The most comprehensive and up-to-date assessment of how genetic factors affect susceptibility to environmental agents. The book provides an objective critical evaluation of current scientific literature on the subject, with particular emphasis on those agents typically considered pollutants. (0 471 89112-6) 1984 Chemodynamics Environmental Movement of Chemicals in Air, Water and Soil Louis J. Thibodeaux This book describes the nature and processes of the transport of pollutants throughout the environment. It examines equilibrium at environmental interfaces, transport fundamentals, and the chemical exchange rates between air and water, water and the adjoining earthen material, air and soil, as well as intraphase chemical...
