Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Are you a moral individual? Do you consider yourself an ethical person? What about in business? Does success justify our bending a few rules? Inside you ll find an introductory essay discussing the impact of a moral individual in a modern society that wants to escape the moral repercussions of its decisions. The contentions between State, Religion, Science and Secularism are briefly explored alongside the idea of personal conscience and free will. Is Religion the villain in modern democracies, or is the laic State more intrusive? If the State is laic but the majority of a population is not, how legitimate is legislation that usurps taxpayers money to pursue religiously questionable goals? Is mere pluralism the width and breadth of a genuine democracy? Should moral tolerance be infinite? What part does intolerance play? Hard questions are the ones worth asking, but there are not enough people asking them. Explore these subjects and awaken your mind to the central dilemma of our generation. Wake up to the chief contention of our age.
