George Ronald. Paperback. Book Condition: New. Paperback. 247 pages. Michael Karlberg put forward the thesis that our present culture of contest is both socially unjust and ecologically unsustainable and that the surrounding culture of protest is an inadequate response to the social and ecological problems it generates. How can social change come about Is it possible to have democratic government without political parties Can we have a productive economy without unfettered and aggressive competition How can social and ecological ills be addressed without resorting to a culture of protest Adversarialism has become the predominant strand in contemporary western-liberal societies. Throughout the public sphere, competitive and conflictual practices have become institutionalised norms. In his analysis of present-day society, Michael Karlberg puts forward the thesis that our present culture of contest is both socially unjust and ecologically unsustainable and that the surrounding culture of protest is an inadequate response to the social and ecological problems it generates. The development of non-adversarial structures and practices is imperative. Dr Karlberg considers various historical and contemporary expressions of mutualism, including expressions within feminism, systems theory, ecology and environmentalism, communication theory and alternative dispute resolution, and presents a case study of the Bahai community and its experience as a working, non-adversarial model of social practice. The prescriptions and practices of the Bahai community provide a viable and workable alternative to the culture of contest. Beyond the Culture of Contest is the latest book in the George Ronald Bahai Studies series. Michael Karlberg is Associate Professor in the Department of Communication at Western Washington University. His research and writing focus on the relationship between communication, culture and conflict. He also teaches in the area of critical media literacy, helping students understand the ways that we are influenced by, and can also influence, our mass-mediated cultural environments. This item...
