Digital Discourse: Language in the New Media (Paperback)

By -

Oxford University Press Inc, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Digital Discourse offers a distinctly sociolinguistic perspective on the nature of language in digital technologies. It starts by simply bringing new media sociolinguistics up to date, addressing current technologies like instant messaging, textmessaging, blogging, photo-sharing, mobile phones, gaming, social network sites, and video sharing. Chapters cover a range of communicative contexts (journalism, gaming, tourism, leisure, performance, public debate), communicators (professional and lay, young people and adults, intimates and groups), and languages (Irish, Hebrew, Chinese, Finnish, Japanese, German, Greek, Arabic, and French). The volume is organized around topics of primary interest to sociolinguists, including genre, style and stance. With commentaries from the two most internationally recognized scholars of new media discourse (Naomi Baron and Susan Herring) and essays by well-established scholars and new voices in sociolinguistics, the volume will be more current, more diverse, and more thematically unified than any other collection on the topic.

Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.

-- **Dr. Deonte Hammes DDS**

This pdf is worth buying. It is actually wriiter in basic words and not confusing. Its been printed in an remarkably basic way in fact it is merely following i finished reading this publication through which really altered me, affect the way i really believe.

-- **Dr. Linwood Lehner IV**
