By La Salle Extension University

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Freight Rates: Official Classification Territory and Eastern Canada In offering this work to the public, the authors wish to state that it is designed with a view to setting forth the underlying principles and bases employed in constructing rates in the so-called Official Classification Territory. The rates used in the illustrations may be expected to change slightly from time to time, but this will not affect the general worth of the book, since the relationship of points is at all times preserved to some degree. The difficulties attending the preparation of a work in which specific rates are used can well be appreciated by men actually engaged in traffic work. In preparing this treatise, the authors have availed themselves of the published bases for rate construction employed in Central Freight Association, Trunk Line Association, and New England Freight Association territories. In addition thereto, many railway officials and traffic experts have been consulted and information acquired through personal interviews and correspondence. The authors wish to express their appreciation of the assistance received from these sources. The...
