The College Myth: Why You Shouldn't Go to College If You Want to Be Successful (Paperback)

By Gene W Kelly

ADVANTAGE MEDIA GROUP, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Remember the housing bubble that collapsed in 2008? The causes look obvious in hindsight: easy credit overheated demand that lead to unsustainably high prices with catastrophic results. The same thing is happening in college education. In The College Myth, Gene Kelly exposes higher education as an over-inflated bubble built on misinformation and debt. The truth is that college is not necessary to achieve success, and in many cases, it is an obstacle to success. The College Myth might just be the pin that bursts this bubble. In the 21st century, the sure-fire route to financial success is learning the trades. Kelly shows how colleges are failing our young people by not teaching them the skills that will be in-demand in the 21st century as the United States fixes its infrastructure, and instead piling debt on students while preparing them for knowledge-e-worker jobs that are disappearing fast.
