PROTEIN PHOSPHORYLATION IN AGING AND AGE-RELATED DISEASE (HARDBACK)

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 2004. Hardback. Book Condition: New. New.. 240 x 166 mm. Language: English . Brand New Book. It can be argued that ATP is the most important molecule in cells. Not only is ATP the key energy source for cells, but it is also the source of phosphate groups that are transferred to a variety of substrate proteins via the action of elaborate families of protein kinases. An equally elaborate array of protein phosphatases can remove...

Reviews

This pdf can be well worth a read, and much better than other I am quite late in start reading this one, but better then never. Your daily life span will probably be transform when you full looking over this book.

-- **Roxanne Stehr**

It in one of the best book. Better then never, though i am quite late in start reading this one. You wont feel monotony at at any moment of the time (that's what catalogues are for regarding in the event you check with me).
