

Commercial Geography (Classic Reprint) (Hardback)

By Herbert Alnwick

Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Commercial Geography The material is arranged so that it shall be practical from the point of view of either the teacher or the candidate doing private study. The main part of the text is concerned definitely with the geographical aspects of trade, while the statistics and other facts are assembled in a separate reference-section. The geography is intended to present to the student ideas about the methods of approaching the subject of commerce; it is something meant to be read for reading s sake, and not primarily to be learnt and then, perhaps, tested iri class. Separate topios are divided into rather short chapters to form lesson units as desired, and groups of these chapters, based on strictly geographical regions, have their own sets of sketch-maps and numerous exercises, written and oral. The maps provided are not intended. To replace those found in most school-atlases, to which reference will constantly have to be made, especially in doing the notebook work suggested. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is...
