

Metaphysics: Languages, Realities, Consciousness, the Big-E: A Natural Philosophy a Christian Illustration

By W Dana Shea

Createspace Independent Publishing Platform, United States, 2012. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.This book speculates as to how science can physically account for ideas, mental processes, and spiritual experiences and how it can accounts for how they can change. In doing so, it offers an understandable explanation by speculatively expanding scientific paradigms explaining: What spirit is; How agency, free will, or choice, can process in quantum waves in our nervous system; The biological process behind unity of being; What human reality and reality qua reality are; What time is verses what moments are verses what space/time is; The processes involved in consciousness, and many other seemingly insolvable problems. It offers a natural explanation to update Whiteheads metaphysics by using the non-symmetries behind all symmetries logically demonstrated by the American Philosopher Charles Hartshorne, using formal deductive logic. It also shows how the paradigms of the social-psychological and developmental-psychology can explain processes scientists cannot see in quantum phenomenon might be if the social, intellectual, and spiritual worlds involve such quantum phenomenon in the physical structures in our brains. In doing so, it shows the processes by which our world...
