Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Eulogium Upon James Knox Polk, Late President of the U. S In the throes and convulsions which led to the dethronement of Charles and the establishment of the Commonwealth in England, many of the bold thinkers and speakers of the times visited or were compelled to seek shelter in Holland and Switzerland, where there existed the only resemblances to Republican government then in being. This led them into a fuller and freer inquiry into the true principle upon which alone government could be founded, to wit, the consent of the governed. They found the condition of Europe, where regal authority had been for centuries trampling on the rights of the people, not a favorable one for the development of their theory. The discovery of America, then comparatively recent, opened a new theatre for action. Hither kindred spirits emigrated, and laid the foundations of a future empire, destined to exercise an immense influence on the happiness of the human family. Those foundations were laid in sound religion, in pure morals, in extended education, and in that love of individual liberty, which has ever been the characteristic of the Anglo Saxon race. The first emigrants were necessarily men of great and indomitable energy; they were fitted by nature, by education, by habits of reflection, and by a pure and unostentatious piety, for the great part they were to act, and nobly did they act it. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
