

## Business Law for Engineers, Vol. 1 (Classic Reprint)

By C. Frank Allen

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 464 pages. Dimensions: 9.0in. x 6.0in. x 0.9in. Excerpt from Business Law for Engineers, Vol. 1. When a teacher of railroad engineering writes a book on law, some justification ought to be expected from him. The author was admitted to the Bar of New Mexico, and practised law there, serving as local attorney for the A. T. and S. F. R. R. and as City Attorney of Socorro. He was later admitted to practice in Massachusetts. He also spent several years as a civil engineer in water works, sewerage, and railroad construction. The purpose of this book is not to make every man his own lawyer, but rather to give the engineer a sufficient understanding of important fundamental features of law, so that he may have some idea of when or how to act himself and when to seek expert advice, as well as to enlarge his horizon and perhaps encourage him to further study of law. Many engineers will find that there is some chapter which covers ground concerning which they are better informed than the author or than most practising lawyers. They will, nevertheless, probably find other chapters with...
