CITIZENSHIP OF THE UNITED STATES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Citizenship of the United States One of the most creditable achievements of the administration of President Roosevelt was the reformation of our naturalization laws. These laws, substantially the statutes enacted more than a hundred years ago when our population was less than four millions, and when it was the policy of our government to invite immigration, were ill adapted to our modern conditions, with a population of eighty millions and an influx of foreigners of more than a million annually. Under these laws lax and unsatisfactory methods of naturalization had grown up, opening the way to gross frauds against our citizenship, including perjury, false impersonation, and traffic in false and counterfeit certificates of citizenship. Such certificates were sometimes sold to alien criminals to secure their admission to the United States, and frequently to procure protection against their home governments. Cases have actually occurred where aliens have landed on our shores for the first time, having in their possession certificates entitling them to the full rights of American citizenship. Our Presidents had on numerous occasions brought the subject to the attention of Congress and urged legislation, but without effect.
