

## Why Not?: A Handbook for Inventors and Entrepreneurs

By Alan E Thompson

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.How often do you hear someone say Why don't they do so-and-so? Well, this book aims to show how you can do so-and-so. In the process you may set up your own business and make a million. If you have already made your million, or don't want to, it is still a good read and a way to keep the grey matter in trim. It has been said that everyone has an invention in them, and this book has dozens. There is a mixture from the easily achievable to way-out technology that may only become possible decades from now. The process of invention is described, and the reader encouraged to have a go. Although the treatment is light-hearted, this collection of articles has a serious purpose. The inventor is the most important member of society, if often maligned. The whole of our modern civilisation is based on invention; someone had to be the first person to make fire, chip flint, make string or weave. The process is ongoing and accelerating. There is a...
