Forensic Science: Crime Scene Analysis

By MR David Elio Malocco

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Welcome to the Second Edition of the best selling book Forensic Science Crime Scene Analysis. Little did we know in 2014 that this small book would become so popular and remain popular for over a year. We looked at ways at improving it and we have done so. The Second Edition has been revised, updated and greatly expanded. It is now more than twice the size of the original book with extra sections on forensic photography, blood spatter analysis, trace evidence, impressions, ballistics, bomb-making, explosives, toxicology, digital evidence, search warrants, forensic computer investigation, DNA testing and advances, Miranda rights, police interrogation techniques, and the law relating to the admissibility of confessions. There is also a much extended Glossary and complete new chapters on the Admissibility of Expert Evidence and Criminal Law Evidence. This is the perfect starter book for Forensic Science students an provides a solid introduction into the subject. Recommended for forensic science students, criminologists, law enforcement agents, criminal lawyers and basically anyone interested in crime.
