

Family Man: Fatherhood, Housework, and Gender Equity (Paperback)

Filesize: 8.95 MB

Reviews

It is one of the best books. Better than ever, though I am quite late in starting to read this one. You won't feel monotony at any moment of the time (that's what catalogues are for regarding in the event you check with me).

(Dr. Kristin Dickens)

FAMILY MAN: FATHERHOOD, HOUSEWORK, AND GENDER EQUITY (PAPERBACK)**DOWNLOAD**

Oxford University Press Inc, United States, 1997. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The typical American family has changed dramatically since the days of Ozzie and Harriet and Father Knows Best. Double-income families are now the rule, and fathers are much more involved in raising the children and cleaning house. Reactions to these changes have been diverse, ranging from grave misgivings to a sense of liberation and new possibility. Groups as diverse as Promise Keepers, the Million Man March, and Robert Bly's mythopoetic men's movement tell us that fathers are important. From the fundamentalist right to the feminist left, opinions about the changing nature of the family-and the consequent rethinking of gender roles-have been vehement, if not always very well-founded. In *Family Man*, sociologist Scott Coltrane brings a wealth of compelling evidence to this debate over the American family. Drawing on his own extensive research and many fascinating interviews, Coltrane explodes many of the common myths about shared parenting, provides first-hand accounts of men's and women's feelings in two-job families, and reveals some innovative solutions that couples have developed to balance job and family commitments. Readers will find an insightful discussion of precisely how and why family life has changed, what forms it may take in the future, and what new kinds of fathers may be on the horizon. The author firmly places these questions within a broad contextual framework. He provides, for instance, an illuminating history of the family that shows that, far from being a fixed structure, the family has always adapted to changing economic, social, and ideological pressures. And by examining how families operate in a variety of non-industrial societies, he demonstrates that our own notions of gender-specific work and parenting roles are culturally rather than...
