# optimization method and program design

研究生数学丛书

**最优化方法与程序设计**

张凯 编著

科学出版社

Filesize: 6.85 MB

## Reviews

I just started out reading this ebook. I could comprehended every little thing out of this written e book. I am pleased to inform you that this is actually the very best publication i have read through inside my personal life and could be he best ebook for ever. *(Antonia Orn IV)*

# OPTIMIZATION METHOD AND PROGRAM DESIGN

To download **optimization method and program design** PDF, please access the button beneath and save the document or gain access to other information that are have conjunction with OPTIMIZATION METHOD AND PROGRAM DESIGN book.

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 188 Publisher: Science Press Pub. Date :2009-06. Optimization methods and procedures designed to systematically introduces non-linear Optimization of basic theory. method and program design. Main contents are: line search and trust region method. steepest descent and Newton s method. conjugate gradient method. quasi-Newton method. the solution of nonlinear least squares problem. penalty function method. feasible direction method. quadratic programming problem solution. sequential quadratic programming method. A simple design in Matlab line search. trust region subproblem solution. FR conjugate gradient method. BFGs quasi-Newton method. multiplier method. the effective set of solutions of quadratic programming method. In addition. Design optimization methods and procedures also describes the procedure fmincon Matlab toolbox and linprog the function and use. in the appendix profile linear programming. nonlinear optimization software. debugging and numerical experiments. we also give non- linear optimization of the English term table. Design optimization methods and procedures. the main object is to read mathematics undergraduate and graduate students. non-math graduate students. teachers interested in the optimization method and scientific and technical personnel. Readers need to have calculus. linear algebra and Matlab language of preliminary knowledge. Contents: Preface Chapter 1 1.1-based optimization model to optimize the function analysis and classification of more than 1.2 yuan convex sets and convex 1.3 1.4 optimality conditions for unconstrained optimization 1.5 algorithm for unconstrained optimization problem to optimize the structure 1.6 Overview of relevant literature and commentary Exercise 1 Chapter 2 line search and trust region method 2.1 2.3 line search interpolation method 2.20.618 2.4 2.5 inexact line search convergence of line search method trust-region method 2.6Four Satisfaction guaranteed,or money back.
