A THEORETICAL APPROACH TO COGNITIVE VISUALISATION OF MUSICAL SOUNDS IN GRAPHIC IMAGES

GRIN Publishing Aug 2014, 2014. Taschenbuch. Condition: Neu. Neuware - Master's Thesis from the year 2014 in the subject Art - Visual artists, Cyprus International University, language: English, abstract: The purpose of this study was to find out the possibility of visualising musical sounds in graphic images from an objective viewpoint. In an opposition to the dominant methodological approach to human cognition of the last century, the study initially rejected an idealistic approach by mainly focusing on literatures from the...
