Brand New Book ***** Print on Demand *****.Excerpt from A New System of Geography, Vol. 4 of 6: In Which Is Given, a General Account of the Situation and Limits, the Manners, History, and Constitution, of the Several Kingdoms and States in the Known World; And a Very Particular Description of Their Subdivisions and Dependencies; Their Cities and Tow Of the many charts extant of Germany, that by Homann published in the year 1741, and methodically illuminated according to Schatzs. principles: with the large charts executed on four sheets by Eisenschmid, and published also by Homann, are the most useful. But of how little service these and all the other charts hitherto extant of Germany are, will appear upon a stricter enquiry into their intrinsic value, from the excellent Mappa critica Germania:, executed with unspeakable labour by professor Mayer, and published in 1750, by Homann s heirs. In consequence of which we hitherto know the true situation and distance of about twenty places only, and Germany is, by the old geographers, extended about a whole degree too far to the east. It is therefore much to be wished, for the honour and benefit of Germany, that the patriotic proposal of the Cosmographical Society may be happily carried into execution; according to which each state of the Empire should suffer a Cabinet-Atlas to be taken of their territory by the German Surveying-office, which is under this name incorporated with the Cosmographical Society, and then permit a general chart to be engraved therefrom, which might be afterwards used for executing a chart of all Germany, But as it would require above half a century before a new and complete Atlas of Germany could be formed, even...
