This is the finest publication we have read through right up until now. Better than never, though I am quite late in starting to read this one. It has been written in a remarkably easy way in fact it is only after I finished reading through this book that I basically altered my way of thinking.

What might be most remarkable about them, however, is the very lack of remarkability with which they are received (KELLY-HOLMES 67) by German consumers when they are encountered as parts of magazine advertisements. Along with numerous other examples, these three items were extracted from the acclaimed weekly German news magazine Der Spiegel in order to get a clear picture of which effects English has and which role it plays in German advertisement. This paper will argue that English has an effect on virtually all of the 114 ads examined in the Spiegel issues of 4/11 and 4/18 2005, even on the ones that do not contain any English themselves. Furthermore, it will show that the effect English has on German ads extends beyond the concepts usually related...
