Reviews

A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.

DEAD TREES

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 460 pages. Dimensions: 9.0in. x 6.0in. x 1.0in. Subterranean humanoids, existing since the dawn of man, arose from the belly of the planet. Humanity was unprepared. The undergrounders came with nails and claws and speed to kill people in the night, dragging bodies downward into dark tunnels teeming with rabid life. Civilization is now a ghost of yesterday and the remaining humans fight for survival. One thing for sure- a scientist mommy battling beasties better be handy with a scalpel. Elise Swanson is a widow and mother. She fights and prays that she can keep her little, broken family safe. She drives and drives, day after day, trying to escape a threat that seems inescapable. Her hope fades, food is scarce and she watches her eldest daughters attempts to soothe the younger babe. Then she meets Jason- a father mourning the loss of his son, masking his pain with bravado and charm. Hes strong, despite his sadness, and love re-grows within him. Weeks pass and Jasons singular desire becomes the continued safety of Elise and her daughters. Bloody fights with beasties define the survival-road the companions travel. Even a few moments of safety and relaxation elude the group; time and time again, Elise must kiss her children goodbye, just in case tomorrow never arrives. Against all odds, they reach a government safe zone. Even there, Elise finds that theres no rest for the weary. Doctors OToole and Peters have been studying the beasties under lock and key, trying to find an answer, but the doctors arent interested in saving humanity. Forced to lead two lives, Elise assists the good doctors in their pursuits while working secretly in sublevel lab 8 with her own team, Nick and...
