### **Reviews**

*This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Educational Museums and Libraries of Europe In its original plan, the library included fourteen departments: (1) English language and literature; (2) classical language and literature; (3) modern language and literature; (4) biography and history; (5) theology and church history; (6) works on pedagogy, reports, examination papers, etc.; (7) political, domestic, and social economy; (8) drawing and writing (9) music; (10) mathematics; (11) geography and astronomy (12) geology and mineralogy; (13) botany and general natural history; (14) chemistry, general physics, and mechanics. Since 1883 no books have been added to the first five departments. The present aim is to make it strictly an education and science library. The library numbers volumes, of which are works on pedagogy, reports, examination papers, etc. The first catalogue was printed in 1857, and nine subsequent additions have appeared. A new catalogue, containing all the books on education, was published in 1893. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
