Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Your core strategy for trading water can and should be very simple and really all you will need to make money with the smart money every day in the live financial markets or any liquid (no pun intended) market for that matter. Do your due diligence and you will begin to see that water is the investment of a life time since there is only a limited amount of it on earth, it is supply and demand at its most raw. Remember, nothing on earth can survive without water, nothing. Water investing and trading should be looked at as a long term horizon play and the information in this book will give beginner water traders some great ways to get their feet wet as it were. There are many ways to invest in and trade water and the information in this book can give you a head start and put you on the fast track to making an unlimited income from investing in and trading water over the next 20-30 years or longer. The financial markets only work on supply and demand and water takes that to the extreme because of its limited quantity on earth. When you are doing reading this book you will have a great idea where to begin as a beginner water investor and trader and how to begin making an unlimited income from having water in your portfolio as a long term horizon play.
