This book, including the study of soils and plant husbandry, offers a solution for this difficulty. The book has had its origin in the discussions and plans formulated by the agricultural teachers of accredited high schools in conferences beginning in 1914. These conferences for southern states have been held and reports formulated in cooperation with the United States Department of Agriculture. A decided effort has been made to get away from the one-year plan for the starting of the high school course in agriculture. There has also been a feeling that high school students should not be required to purchase too many separate text-books for each year of the high school course. The plan, somewhat modified, would be: High schools offering only one year of agriculture, should give - A year of plant husbandry (with a view to adding a second year of animal husbandry later). High schools offering two years of agriculture should give: First year: Plant Husbandry. Second year: Animal Husbandry (including Poultry). High schools offering three years of agriculture should give: First year: Plant Husbandry. Second year: Animal Husbandry (including Poultry). Third year: Farm Mechanics and Engineering (half year). Farm Management and Accounting (half year). High schools offering four years of agriculture should give: First year: Plant Husbandry. Second year: Animal Husbandry (including Poultry). Third year: Farm Mechanics and Engineering (half year). Farm Management and Accounting (half year). Fourth year:...
