City Lights Books, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book. In light of the recent terrorist threats at U.K and U.S. airports, this book is a timely and provocative read about what governments should and should not be doing to protect us from further terrorist attacks. It is a crucial look at a little-examined aspect of the U.S. -- led war on terror -- the move toward the use of mass, globalized surveillance and a preemptive model of security, and its effects on democratic values and human rights around the world. George Orwell and Michel Foucault together could not have imagined the future that Maureen Webb warns is already here -- a state of global surveillance that challenges all of our most deep-seated expectations of privacy. Highly readable and critically important. Read it to see who s watching you. --David Cole, author of *Enemy Aliens: Double Standards and Constitutional Freedoms in the War on Terrorism* Through the various frozen scandals of the War on Terror-from extraordinary rendition to torture to warrant-less wiretapping and surveillance-runs a single theme: the Bush Administration s obsessive concern with the preemption of risk. -- Mark Danner, author of *Torture and Truth: America, Abu Ghraib and the War on Terror* Tracking the myriad ways in which governments-aided by advanced technology and profit-hungry corporations-are monitoring and manipulating us, she reminds us that the only predictable consequence of it all is human suffering, with little or no increase in real security. -- Robert Jensen, University of Texas at Austin professor and author of *The Heart of Whiteness and Citizens of the Empire* This valuable guide makes clear how dramatically civil liberties have been attacked in recent years. -- Christian Parenti, author of *The Freedom: Shadows and Hallucinations in Occupied Iraq, The Soft Cage...*
