THE FATS AND OILS SITUATION: SEPTEMBER 1947 (CLASSIC REPRINT) (PAPERBACK)

FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Fats and Oils Situation: September 1947 Production of animal fats is likely to be somewhat smaller in 1947-48 than season just ending, partly as a result of the relatively small corn crop 11. On September 1, corn production was forecast at billion bushels, ent less than in 1946. With less corn, hogs and cattle probably will be market earlier and at lighter weights than in 1946-47. Consequently less animal slaughtered probably will be recovered. The decline in lard and yields per hog probably will more than offset the slight increase expected number of hogs to be slaughtered. Cattle slaughter may be slightly less in r beginning October 1947, since the number of cattle on farms has been con ly reduced by heavy slaughter during the past 12 months. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
