Nanhai edit recommend this book is a comprehensive analysis of the confusion and problems of state-owned enterprises under the old system of property rights theory reveals institutional contradiction to the harm caused by state-owned enterprises. and stressed the urgency of the implementation of property rights reform of state-owned enterprises. to explore how the state-owned enterprises to establish the mode of modern industrial incentives. Executive summary With the establishment of a new state-owned assets management system and the state in the state-owned assets management mode from the management of enterprise toward the transformation of assets under management. the government gradually withdraw from the competition and day-to-day management. prompting the central enterprises and local enterprises distinguish become central assets and local assets further points. and the fact the formation of local state-owned assets management system Zequan Li justifiably unified under the ownership of state-owned assets. Enterprise property rights as a product of the human socio-economic development process. whether as a legal right to look at or to look at as an economic system. increasing attention has been paid. Therefore. in the present. China is pursuing the process of transformation of the state-owned property. how to establish incentives to meet modern industry characteristics in state-owned enterprises. but also confused by the various state-owned enterprise management department. The problem of the book focuses on. is in the process...
