

Excursions in and about Newfoundland, during the Years 1839 and 1840 (Paperback)

Filesize: 5 MB

Reviews

Certainly, this is the finest job by any publisher. I was able to comprehend almost everything out of this published ebook. You won't truly feel monotony at any moment of the time (that's what catalogues are for concerning should you question me).

EXCURSIONS IN AND ABOUT NEWFOUNDLAND, DURING THE YEARS 1839 AND 1840 (PAPERBACK)

[DOWNLOAD PDF](#)

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Joseph Beete Jukes (1811-1869) was a geologist who studied at Cambridge under the famous Adam Sedgwick (1785-1873) and eventually became a prominent member of the Geological Survey of Great Britain. In 1839, after many field expeditions in England, he was appointed to a survey of Newfoundland, a place about which he had until then been in utter ignorance . The explorers failed to find the hoped-for mineral wealth they had been sent to prospect for, and returned to Britain. In 1841 Jukes joined the H.M.S. Fly as a naturalist for an upcoming expedition to chart the coasts of Australia and New Guinea. The Fly set sail for the Pacific in 1842, the year in which this two-volume account of Jukes Newfoundland experiences was published. Volume 2 focuses mainly on Jukes scientific observations, and includes descriptions of the island s natural history, geography and geology.
