Pub Date :2012-08-01 Pages: 139 Publisher: Science Press title: National ordinary institutions of higher learning civil engineering class practical innovative family planning materials: structural analysis of the finite element method. original price: 20.00 yuan: the Yanqing Press: Science Press Publication Date: August 1. 2012 ISBN: 9787030345240 words: Page: 139 Revision: 1 Binding: Paperback: Weight: 259 g Editors' Choice ordinary institutions of higher learning civil engineering class practical series of innovative planning materials: structural analysis of the finite element method and finite element method as institutions of higher learning civil engineering undergraduate curriculum materials are also available for the scientific and technical personnel of the relevant professional reference. Summary ordinary institutions of higher learning civil engineering class innovative family planning materials: structural analysis of the finite element method. focuses on the basic theory of the finite element method. including energy principle. flat. rod. space and axisymmetric . plate and shell problems and structural dynamics problems. National ordinary institutions of higher learning civil engineering class practical innovative family planning materials: structural analysis finite element method unit about the basic principles of the finite element method. and civil engineering structures. unit type plane frame. space pole plane and other parameters. space isoparametric element unit and the thickness of the thin plate bending plate generic unit. The book mainly discusses the structure of linear elastic static analysis. Finally. the vibration and dynamic response of the structure analysis. Learning requirements and learning methods of the directory main symbols Chapter 1 Introduction 1.1 Overview of the development of the finite element method 1.2 finite element method analysis 1.2.1 Matrix Displacement Method 1.2.2 finite element method analysis 1.3 Finite Element Method Exercises Chapter 2 Finite...
