

## Some Complexes of N-Aryl Furfural Nitrones with Co(II), Ni(II), Cu(II), Zn(II) and Cd(II) Chlorides

By Amer Taqa

Grin Verlag Gmbh Apr 2013, 2013. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Titel. - Scholarly Essay from the year 2011 in the subject Chemistry - Anorganic Chemistry, printed single-sided, grade: 3, University of Mosul (DBS), language: English, abstract: Some new metal(II) dichloride complexes with the ligands substituted nitrones of the general formula  $[ML_2Cl_2]$ , where  $M = Co(II), Ni(II), Cu(II), Zn(II)$  and  $Cd(II)$ ,  $L = OCH=CHCH=C-CH=N(O)C_6H_4X$  ( $X = H, p-CH_3, CH_3O, CH_3CO, F, Cl,$  and  $Br$ ) have been prepared and characterized by elemental analysis, IR,  $^1H$ ,  $^{13}C$  NMR and Vis/Uvspectroscopy. The IR spectral data showed that the nitrone ligands coordinated with the metal ion through the most active atom of the N-oxide to give square planar coordinate (Cu, Ni,) complexes and (Zn, Cd, Co) tetrahedral complexes. No correlation was observed between the N-O vibrations stretching frequency (N-O) of the complexes and the Hammett ( $\sigma$ ) constants. 32 pp. Englisch.

### Reviews

*An incredibly wonderful ebook with perfect and lucid explanations. I really could comprehend every little thing using this written e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Tomas Flatley**

*The very best publication I possibly read. It was written very perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Wilhelm Predovic**
