Bookcrafters, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Combining two previously published books, CREATE WITH CRIMPER WORK and BRUSH EMBROIDERY, this book whets the cake decorator s appetite with clear instructions and both formal and fun designs. It encourages you to be creative and make your own imaginative designs with these beautiful and fascinating techniques. A covering of rolled fondant gives a wonderfully smooth, satin like finish to a cake which offers a perfect base for delicate lacework, finely molded flowers and fine embroidery. Decorative designs can be made using crimp work, a technique using tweezer-like crimpers to pinch or crimp the fondant into raised patterns. Brush Embroidery is an Australian technique in which designs are piped on the cake and then smoothed with a damp paintbrush to give a semblance of embroidery. It is an ideal method for duplicating the lace of a bride s dress on a wedding cake and looks exquisite white on white. However, it shows up more effectively where there is a contrast between cake colour and embroidery, e.g., white on a coloured background or on glass. Lace and embroidery patterns provide a wealth of beautiful designs to choose from.
