## THE PREPARATION OF NICOTINE DUST AS AN INSECTICIDE (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from The Preparation of Nicotine Dust as an Insecticide The idea of a standardized nicotine dust, first suggested by the writer as an improvement on tobacco dust for the control of the walnut aphis, has aroused much interest in connection with the possibilities of destroying a number of other insect pests by dusting where liquid spraying is, for one reason or another, ineffective or impractical. Several other kinds of aphis, various leaf hoppers and thrips and a number of lepidopterous larvae, beetles and bugs are already being successfully combated by this means, and it is believed that important possibilities have been opened for further development. The present publication has been prepared in order to make known the methods and results of the work thus far. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
